Sanitation and Maintenance of Beauty Care and Wellness Salon Tools, Implements and Equipment

- 1. Read carefully the instruction guide on how each tool, implements and equipment are properly used.**

- 2. Sterilize the nail care tools and implements before and after use to make sure that they are safe to use.**

- 3. Wipe and sanitize all the hair care and skin care salon tools and equipment before and after using it.**
- 4. Check the electrical wiring, switch, and outlets of beauty care electric operated tools to avoid electric shock among salon staff and customers.**

- 5. Wash and dry thoroughly all the implements and tools used in giving salon services.**

- 6. Put in proper and safe storage all the chemical products that are used in giving nail, ski and hair care services and treatments.**

Why is it important to know the proper use of tools, implements, materials, and equipment in nail, skin, and hair care?

If a client comes in with dirty nails and rough hands, which tools or equipment would you use first, and how would you use them to provide proper care?

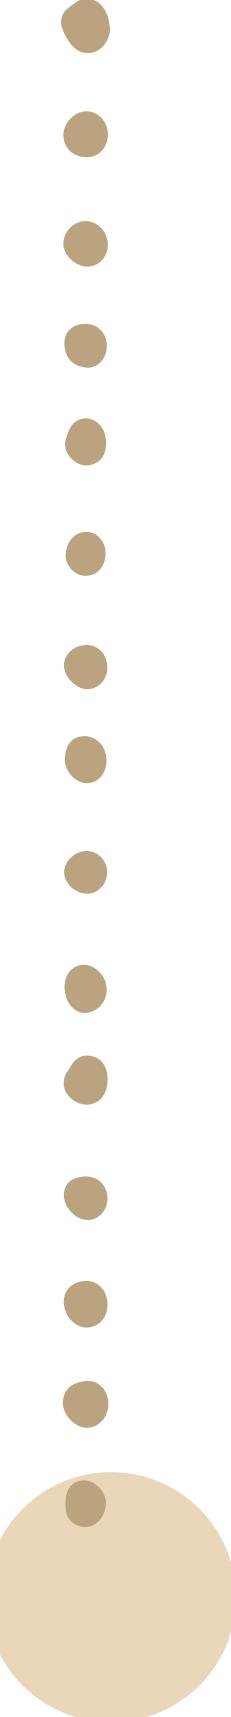

JEHOSHUA ACADEMY OF MARIKINA

Integrated • Responsive • Sustainable

Why should all tools and equipment be properly cleaned or sanitized after each use?
